

# Image/Video Licence:

Version/Revision 1 - 26/03/23

---

**You are free to use any images and videos on the site in your content (video, blogpost, etc). However you must follow the following guidelines:**

1. You must attribute us (Creator Hub) whenever you use our content in your content. The format can be found on all of our content pages. If this is not done correctly and to said format, you are subject to a **copyright strike/takedown**.

2. You **cannot** claim our content as your own.

3. You **cannot** upload our content raw. This means you cannot take one of our videos for example and just upload the video. You must use it in your content, not use it as the content.

**TrackTech Media Group reserves the right to change this policy at any time, however we will notify you when this happens. It is your responsibility to keep up to date with said policy changes.**
